Basic Hygiene Rules

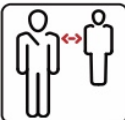

Passengers' self-control. In case of symptoms or contact to a COVID-19 infected person - stay home!

Avoid shaking hands.

Use the disinfectant dispenser upon entering.
Regularly disinfecting your hands is guaranteed.
In addition, bring along your own disinfectant.

Keep your distance when entering and leaving (only the front entrance is open).

Always cough and sneeze into the crook of your arm or use a handkerchief.

Use your own bag for personal waste.
DO NOT dispose of waste into the seat pocket (net).

We avoid using all seats, if possible. If this is not possible, we recommend that you wear your own face mask (own responsibility).

The first row behind the driver remains unoccupied.

The points of contact in the bus are cleaned before/after the journey. The ventilation is also disinfected.
